

Art and Design Policy

Purpose of subject

At St Andrew's Primary School, we are committed to providing all children with learning opportunities to engage in Art and Design

The purpose of Art and Design education is to give pupils the skills, concepts and knowledge necessary for them to express their responses to ideas and experiences in a visual or tactile form. It fires their imagination and is a fundamental means of personal expression.

While it is essentially a practical subject, art should provide opportunities for reflection and, with increasing sensitivity, pupils should acquire the ability to make informed, critical responses to their own work and other children's work.

Aims

The aims of Art and Design are:

- To enable all children to have access to a varied range of high quality art experiences
- To provide an imaginative, innovative and co-ordinated art programme which will foster enthusiasm for art and design amongst all the children
- To foster an enjoyment and appreciation of the visual arts and a knowledge of artists, craftspeople and designers, through links with the local and wider multicultural community.
- To stimulate children's creativity and imagination by providing visual, tactile and sensory experience
- To help children explore the world at first hand, using all their senses and experimentation, and so gain knowledge and understanding of the world in which they live
- To inspire confidence, value and pleasure in art
- To teach children to express their own ideas, feelings, thoughts and experiences
- To develop children's design capability
- To enhance children's ability to value the contribution made by artists, craft workers and designers and respond critically and imaginatively to ideas, images and objects

Subject Curriculum Planning

The children undertake a balanced programme that takes account of abilities, aptitudes and physical, emotional and intellectual development. Through Art and Design, the children learn a range of skills, concepts, attitudes, techniques and methods of working

Early Years

During the Early Years, young children will be given the opportunity to explore colour, texture, shape and form in two and three dimensions. The children will have access to a wide range of constructions, collage, painting and drawing activities, using appropriate tools and art materials. In order to tap their artistic potential, the children will be encouraged to develop their own creative ideas.

Key Stage 1

During Key Stage 1, Art and Design is about expanding children's creativity and imagination through providing art, craft and design activities relating to the children's own identity and experiences, to natural and manufactured objects and materials with which they are familiar, and the locality in which they live.

- Children will explore the visual, tactile and sensory qualities of materials and processes and begin to understand and use colour, shape and space, pattern and texture, to represent their own ideas and feelings.
- Children will focus on the work of artists, craftspeople and designers by asking and answering questions, such as: 'What is it like?' 'What do I think about it?'

Key Stage 2

During Key Stage 2, Art and Design is about fostering children's creativity and imagination by building on their knowledge, skills and understanding of materials and processes, through providing more complex activities. Children's experiences help them to understand the diverse roles and functions of Art and Design in the world around them.

Cross Curricular learning

At St Andrew's Primary School Art is taught through a topic approach alongside Design & Technology, History and Geography. Our curriculum is carefully planned to engage and excite all our learners.

Assessment and recording

At St Andrew's School assessment is an integral part of the teaching process. At the beginning of each half term the class teacher creates a knowledge map to show the outcomes at the end of the half term and review some assessment questions that are asked at the beginning and end of topics.

Monitoring

Each child has an art sketchbook which serves as a cumulative record of their work and is passed on to the next teacher at the end of each year. Samples of children's work are also collected. Monitoring takes place regularly through sampling children's work, teacher planning and lesson observations.
